

# Isabel Prado-Tucker

New York, NY • 929-354-5699 • [isabel.a.prado-tucker.28@dartmouth.edu](mailto:isabel.a.prado-tucker.28@dartmouth.edu)

[linkedin.com/in/isabelpradotucker](https://www.linkedin.com/in/isabelpradotucker) • [github.com/isabelpt](https://github.com/isabelpt) • [isabelpradotucker.vercel.app](https://isabelpradotucker.vercel.app)

## Education

**Dartmouth College**, Hanover, NH

06/28

Bachelor of Arts, Quantitative Social Science & Geography, Third Honor Group

GPA 3.89/4.00

Relevant Coursework: AI & Machine Learning for Social Sciences (Python), Modern Statistical Computing (Python/SQL), Advanced Data Visualization (R), Object Oriented Programming (Java), AP Statistics, The Price System (Econ 01), Accelerated Multivariable Calculus; In-Progress: Intro to Linear Models (Python), Geographical Information Systems (ArcGIS)

**Menlo School**, Atherton, CA • High School Diploma

06/24 • GPA 4.21/4.00

## Technical Skills

**Programming:** Python, R, SQL, JavaScript (D3.js), SQL, HTML/CSS, MATLAB, Java, Git/Version Control

**Data Analysis:** Excel, GIS, Data Pipelines, Statistical Analysis, Time-Series Analysis, Data Visualization

**Machine Learning & AI:** Regression, Tree-Based Methods (Random Forest, Gradient Boosting), Natural Language Processing, AI-assisted workflows (Claude Code, GPT), SHAP

**Domain Expertise:** Spatial Analysis, Consumer Insights, Data Storytelling, Research Design

## Projects

**Gotham FC Attendance Forecast** • Summer 2026 • Tech Stack: Python

- Built an end-to-end demand-forecasting pipeline (linear model → CatBoost residual model → SHAP decomposition → synthetic control) to project stadium attendance after a 2028 relocation as 14,962–22,849 fans, 60–91% of capacity
- Translated statistical modeling and spatial analysis into actionable business insights for market optimization, demonstrating ability to turn raw operational data into stakeholder-ready findings

**Heavy Rain & High Water** • 2026 CAUSE Data Scrolltelling Contest Winner • Tech Stack: R, JS (d3.js), HTML/CSS

- Synthesized and cleaned multi-source data to quickly identify inflection points in flood risk, building interactive JavaScript-based visualizations that communicate complex findings to non-technical audiences

## Experience

**TSG Consumer Partners**, New York, NY

01/27 – 03/27

Incoming Winter Consumer Insights Intern

**Applied Hydroclimatology Lab, Dartmouth College**, Hanover, NH

01/25 – Present

*Research Assistant, Neukom Scholar*

- Second author for the 2026 Massachusetts Climate Assessment (Precipitation & Storms chapter); analyzed data from multiple sources and distilled findings into 20+ publication-ready figures and written reports, presenting results and policy-relevant recommendations to regulatory and technical stakeholders
- Build and maintain data pipelines in R to ingest, clean, and validate large, stochastic climate datasets, applying statistical analysis to identify significant trends across noisy real-world data; increased processing efficiency 50% by leveraging AI tools to streamline data pipelines

**Snyder Lab, Stanford University School of Medicine**, Stanford, CA

06/23 – 06/24

*Student Researcher, Doris Duke Scholar*

- Managed and cleaned high-dimensional health datasets in Python and R, applying machine learning and statistical methods (PCA, ANOVA, and sPLS-DA) to extract insights about Ulcerative Colitis biomarkers across 116 chemical features
- Co-authored original regional environmental toxin study, demonstrating ability to structure raw sample data inputs into clean schema and communicate technical findings

**Kode with Klossy**, New York, NY

03/23 – 07/25

*Instructor Assistant for Data Science and Mobile App Development*

- Taught foundational Python, SQL, and Swift concepts, through technical workshops, remediation sessions, and engaging activities to strengthen students' data manipulation and problem-solving skills
- Developed clear communication strategies to translate technical concepts for non-technical audiences

## Leadership & Additional Experience

**Dartmouth Physical Education & Recreation**, Lyme, NH

11/25 – Present

*Certified PSIA Level I Ski Instructor*

- Plan and execute engaging, technical lessons and manage safety for groups of beginner skiers

**Daybreak Women's Ultimate Frisbee Team**, Hanover, NH

09/24 – Present

*Logistics Chair & Leadership Team*

- Organize travel, tournament, and practice logistics and coordinate weekly with captains on strategy, planning, and team funds
- Other: QSS 18 Game Theory Grader, Sugar Crew, Sustainability Action Program, Club Fencing
